

Santa Clara City
Individual Lot Notice of Intent (NOI)
Coverage Under the Federal Clean Water Act

Submission of this form supersedes any prior Notice of Intent (NOI) and Stormwater Pollution Prevention Plan (SWPPP) for the lot indicated in the application and fulfills the notification and discharge authorization procedures for individual lots, as required by Santa Clara City Erosion Control Ordinance. The applicant assumes sole responsibility for the building phase of development for this lot.

I. Applicant Information

Name of Applicant: _____

Email: _____

Company Name: _____

24-hour Contact Person: _____ Phone: _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

City: Santa Clara City State: Utah Zip Code: 84765

III. Construction Activity Information

Estimated Start Date	Estimated Completion Date	Estimated Disturbed/Acreage
_____	_____	_____

IV. Certification

I certify, under penalty of law, that I am familiar with and agree to comply with the terms and conditions provided in this Notice of Intent (NOI) and Stormwater Pollution Prevention Plan (SWPPP) and that I am solely responsible for the individual lot covered by this NOI and SWPPP. I understand that Santa Clara City is authorized to inspect the site.

Signature: _____ Date: _____

Print Name: _____

**Individual Lot SWPPP
(Stormwater Pollution Prevention Plan)
For Coverage Under the Federal Clean Water Act**

Initial (Required) on each line to indicate that you have read and understand the following:

1. _____ **Select A, B, C or Own Site Plan** annotated as needed, in order to fulfill the SWPPP requirements set forth in Santa Clara City.
 - Site Plan TYPE “A” Front & Side Erosion Plan**
 - Site Plan TYPE “B” Front & Rear Erosion Plan**
 - Site Plan TYPE “C” Front Erosion Plan**
 - Own Site Plan** (provide with Building Permit Application)

2. _____ All BMPs will be constructed, installed and maintained according to the minimum standards and specifications set forth in the Santa Clara City Grading Manual, or otherwise approved by the Stormwater Coordinator, and will be in place and in working order prior to any construction activity.

3. _____ BMPs will be installed, operated and maintained to protect streams, rivers, ponds and wetlands from sedimentation and a spill prevention plan will be followed for any spills or illicit discharges that may leave the site.

4. _____ If applicable, any features of the site that are vulnerable to erosion, as well as BMPs implemented for these features, are shown on the attached Site Plan.

5. _____ All BMPs will be inspected by qualified personnel at least once every seven calendar days during active construction and within twenty-four hours after any storm event greater than 0.5 inches during a 24-hour period. Any necessary repairs or clean-up to maintain the effectiveness of the BMPs shall be made prior to the next storm event whenever practicable. If implementation before the next storm event is impracticable, the situation will be documented in the Site Plan and alternative BMPs will be implemented as soon as possible.

6. _____ Sediment deposited into or upon any street, alley, sidewalk, public roadway, storm drainage system, or public ground will be removed within two days. A contingency plan will be implemented for unforeseen erosion or sediment problems, including emergency situations caused by storms.

7. _____ Following any construction activity, final or temporary stabilization shall be completed as soon as practicable, but in no case more than fourteen days, to the surface of all perimeter controls, topsoil stockpiles, and any other disturbed or graded areas on the project site which are not being used for material storage, or on which actual construction activity is not being performed.

8. _____ Either the lot will be stabilized by the builder at the end of construction or the homeowner will be informed of the need for final stabilization.

9. _____ This form will either be posted at the construction site or made available upon request within a 24 hour period.
