## BACK TO SCHOOL SAFETY REMINDER!

Parents love it, kids may hate it – Back to School has started. Public Safety wants to remind everyone to be on the lookout for kids, and to use caution around school buses and in school zones, especially on busy streets. Let's keep our kids safe this year!

## SEPTEMBER 2019 MAYOR'S MESSAGE

I love September; it means cooler temperatures, high school football, playoff run baseball, hunting season and of course Swiss Days. The City is anxious for another fun-filled program and celebration of our community heritage this month. There is a schedule of the planned events and entertainment in this newsletter. The venues offer a family friendly environment with something for every age group. From kid's games, to live entertainment, great food, the best parade in Southern Utah in the downtown, the 5k run, craft vendors, the car show; whatever your interest is, there is an event just for you. Someone even promised a pie eating contest featuring the Mayor and City Council. The City Staff has promised even more candy this year for the parade, so be sure to wave when the City Council comes by.

The primary election is in our rearview mirror and the general election is coming up fast. The mail in ballots produced a much higher voting percentage with very few problems. Congratulations to the six candidates moving forward including former Mayor Denny Drake, Leina Mathis, incumbent Councilman Jarrett Waite, Ryan Anderson, Logan Blake and Gary Allred. Thanks to all the citizens who exercised their right to vote in the primary election. Let's get even more people out to vote in the general election.

Work is progressing on the Chapel Street Bridge Project. The contractor recently poured the concrete abutments and bent structure and is working to install the erosion protection, roadway grading and utilities. The steel beams are due for delivery in October and we are hopeful the project will be completed ahead of schedule. The Rhone Subdivision in the valley was completed last month as well and is offering large custom home lots for sale. The City Council approved ordinances to provide secondary (irrigation) water service to lots in the Rhone Subdivision and are working to establish standards and rates to provide this service where available to other new development projects in the City and eventually to existing developed properties as well. By converting residential and commercial outdoor irrigation water use from culinary water to secondary irrigation water, the City can reduce the amount of expensive culinary water we purchase from non-City owned water sources. It's an important way to help conserve our limited culinary water resources and maintain water costs within the community.

I anticipate the Planning Commission and City Council will be discussing a new development proposal located at the intersection of Santa Clara Drive and Lava Flow Drive in the next few months. This project is at a critical location near the entrance to the City from St. George and several different variations of a mixed commercial and residential development have been discussed in the past. Interested residents should follow upcoming meeting agendas on the City website, <https://sccity.org>, to learn more about any new proposals.

Have a great September Santa Clara, I hope to see you at Swiss Days and please stay safe.

Mayor Rick Rosenberg; [mayor@sccity.org](mailto:mayor@sccity.org)

## SANTA CLARA CITY STORM WATER PROTECTION NOTICE

Sometimes it can go unnoticed, but most of the time we are aware that our automobile has some type of fluid leak. If your vehicle is leaking some type of fluid, don't park on the street. Put some type of drip pan underneath your vehicle to catch the fluid while parked in your driveway. This fluid can be discarded at a local auto parts store at no cost to you. Vehicles parked on the street with fluid leaks after a rain event will allow that leaking fluid to enter straight into the city storm water drainage system. The fluid then ends up in our lakes, rivers and, streams. We can all help to keep our water ways clean!

To report spills, illegal dumping, or other violations to the City Storm Water System please call (435) 656-4690. You can also contact the Dixie Clean Storm Water Coalition HOT LINE at (435) 634-5730.

## LEARN CPR by Santa Clara-Ivins Fire Rescue

### Why is CPR Training Important?

**You can save a life** – with 88% of cardiac arrests occurring in the home, chances are learning CPR can help you save a spouse, child, parent or loved one.

**You can help prevent unnecessary deaths** – CPR provided immediately after sudden cardiac arrest can double or even triple a victim's chance of surviving such an event.

**CPR training prepares you for a variety of emergency situations** – CPR classes can arm you with the skills and training necessary to assist someone who is drowning, suffocating, or choking. A CPR training class gives you the skills to help you to respond effectively to a multitude of medical emergencies.

**Any CPR is better than no CPR** – attempting to provide resuscitation is better than not attempting at all.

For more information on CPR classes available contact Santa Clara – Ivins Fire Rescue at [ctaschuk@sccity.org](mailto:ctaschuk@sccity.org)
